## SPECIFICATION

### 1. Title of the invention

Manufacture of Senbei Using Dough as Raw Material

### 2. Claims

(1) A method for manufacturing senbei using dough as raw material, characterized by having a raw material supply process wherein starchy raw material is powdered, specific amounts of seasonings and water are added before kneading and drying to produce a dough, which is then introduced in a prescribed amount into a senbei baking mold comprising a male and female surface that fit together, a raw material heating process wherein the aforementioned senbei mold is heated in a sealed condition so that the water
